E-Hybrid Driving Experience

Renegade e-Hybrid deliver an innovative hybrid driving experience thanks to a specific propulsion system featuring:

- a new 1.5 T4 turbo 130 hp 240 Nm **gasoline engine**,
- coupled with a new **7-speed dual-clutch transmission**, integrating a **48-Volt 15-kW electric motor**.

The water-cooled 48-Volt battery also includes a 48-to-12 Volt DC/DC converter, and a **Belt Starter Generator** has been introduced for smooth restart of the engine at low speed, thus increasing comfort.

The new **4-cylinder turbocharged engine**, from the Global Small Engine family, has been designed to **be the best fit for hybrid usage**.

It operates on the **Miller cycle** which offers a high compression ratio (12.5:1) and **improves thermal efficiency therefore reducing fuel consumption**.

Courtesy of the e-Hybrid propulsion system, Renegade offers a new alternative in the two-wheel-drive segment. Customers can keep their driving habits intact and **enjoy a real hybrid experience**, with the opportunity to move in full electric – at low speed or during sailing – thanks to new “EV capabilities”.

- Silent Start starts the vehicle without turning on the petrol engine.
- Energy Recovery recharges the batteries when the vehicle decelerates (e-Coasting) and during braking (Regenerative Braking).
- e-Queuing enables electric stop and go when jammed in traffic.
- e-Launch allows launch in electric mode when starting up or restarting the vehicle.
- e-Boosting increases torque to the wheels with the support of the electric motor when accelerating and optimizes the operating point of the petrol engine (thus reducing fuel consumption and CO2 emissions) when cruising.
- e-Creeping makes the vehicle travel with zero emissions at low speed, by simply releasing the brake pedal.
- e-Parking simplifies parking manoeuvres and carries them out in EV mode, silently and at zero emissions.

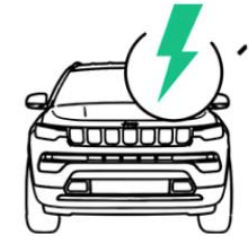

The hybrid driving parameters are controlled by the driver via the **Hybrid Pages** on the infotainment display, or from dedicated screenshots in the instrument panel.

JEEP® RENEGADE MY23 PRICE LIST

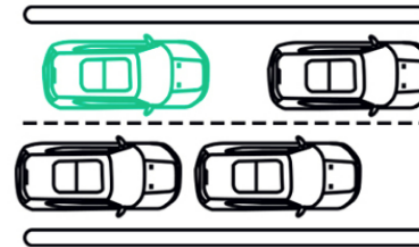

E-CREEPING

The vehicle can move slowly in pure electric even with the internal combustion engine switched off, by releasing the brake pedal and letting the electric motor kick in.

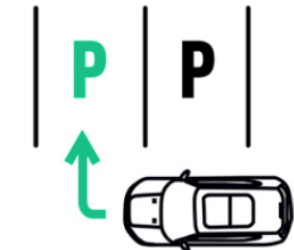

E-LAUNCH

Thanks to new e-Hybrid technology, the starting the vehicle is smooth, silent, and in pure electric mode.

E-QUEUING

Thanks to the low speed driving in pure electric, the e-Hybrid technology allows you to move smoothly and quietly even when starting and stopping between traffic.

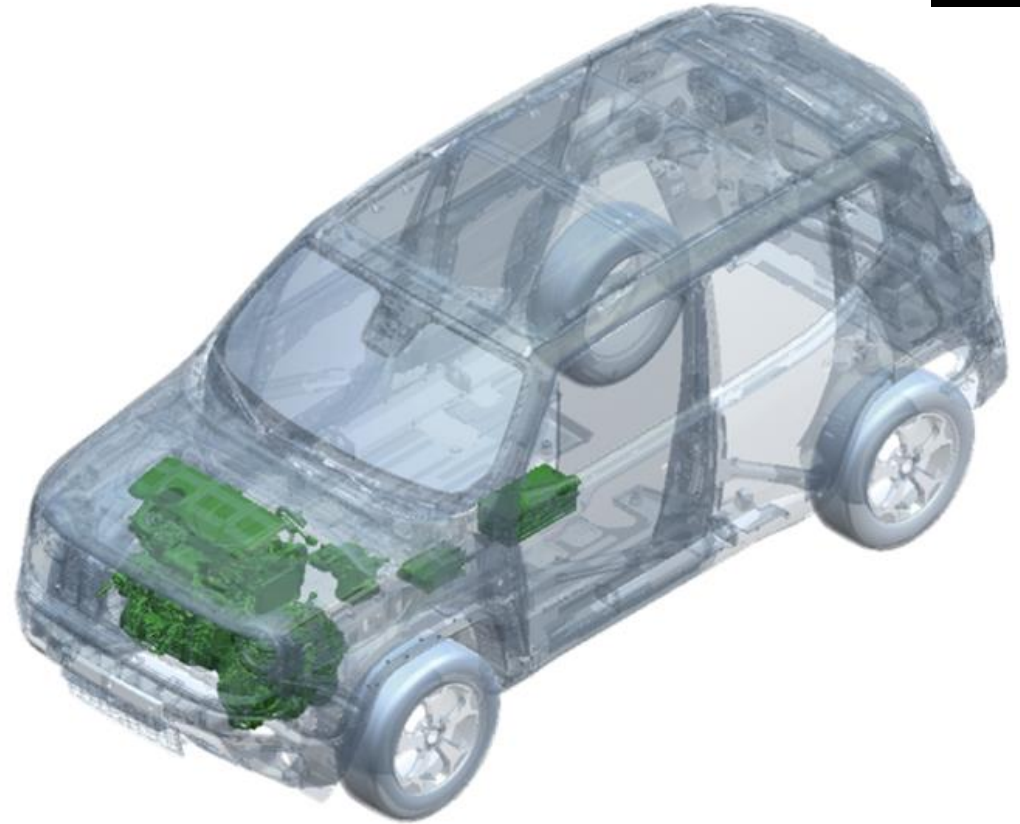

E-PARKING

Thanks to this technology, parking manoeuvres can be carried out in pure electric mode.

e-Boosting

e-Boosting technology is a distinctive trait of the Jeep® e-Hybrid powertrain. It allows the engine to boost both power and torque by up to 15 kW (20 hp) and 55 Nm (135 Nm at gearbox input level)*. Electric power also optimises the petrol engine's operating point, maximising its efficiency.

** Operational capability is subject to the battery's state of charge and driving conditions*

130 HP

Max power

240 Nm

Max torque

9.7 s

0-100 km/h

191 km/h

Top speed

EXTERIOR

- 17" alloy wheels
- Front fog lights
- Halogen head and taillights
- Painted Door Mirrors, Electrical Adjust and Heated
- Rear privacy glass
- Roof Rails

ON BOARD TECHNOLOGY

- Adaptive cruise control
- Brake Assistance System with Emergency Braking
- Electric Parking Brake
- Electronic Stability Control (ESC) with Hill Start Assist
- Hill Descend Control
- Lane departure warning
- Rain sensing wipers
- Rear Parking Sensors
- Selec-Terrain with 4 drive modes: Auto, Sand/Mud, Snow, Sport
- USB in First and Second Row

INTERIOR

- 7" instrument cluster display
- Black Cloth Upholstery with Contrast Stitch
- Driver Seat 6 Way Manual Adjust
- Dual zone automatic air conditioning
- Front Passenger Seat 4 Way Manual Adjust
- Leather Gear Knob
- Sliding soft Front Seat Armrest with Storage
- Steering Wheel with Audio Controls

FUNCTIONALITY

- 8.4" screen with Apple CarPlay™ and Android Auto™, navigator, and DAB+ radio
- Airbags, Front Seat Mounted Side Airbags
- Airbags, Next Generation Front
- Airbags, Side Curtain Front and Rear
- Automatic headlights
- Express Up / Down Driver and Front Passenger Windows
- Fix and Go Tyre Kit
- Passive entry
- Power Rear Windows
- Premium Security Alarm
- Tyre Pressure Monitoring Service (TPMS)

17" Silver Alloy Wheel

*Fuel consumption and CO₂ figures determined on the basis of the new WLTP test procedure as per Regulation (Regulation (EU) 2018/1832). Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Additional equipment and or options may also affect fuel consumption and the CO₂ emissions produced. For further information, please visit Jeep.ie or contact your preferred authorised Jeep® dealer.

**RRSP excludes dealer delivery and related charges. Pricing relates to current stock only. New / Bespoke orders may be subject to a price increase.

The colours and photographs illustrated can be affected by many factors including technical settings and the printing process are therefore are for guidance only and may differ from a real life environment.
